mihadkazi.me mihadkazi1 mihadkazi1 Uttara, Dhaka

Professional Summary

Computer Science and Engineering student focused on **Game Development, Augmented Reality, and Software Development**, with hands-on experience in **Unity, C#, web technologies, and machine learning**. Interested in building interactive and practical software solutions while continuously developing technical skills.

Education

Green University of Bangladesh *Oct 2022 - Present*
B.Sc. in Computer Science and Engineering Credentials

- CGPA: 3.03/4.0 — (Last 3 semester: 3.70/4)
- **Relevant Courses:** Machine Learning, Artificial Intelligence, Networking, Data Structures & Algorithms, Database Management System, Operating System, Computer Architecture, Object Oriented Programming, Web Programming.
- **Additional Courses:** Engineering Economics, Engineering Drawing.

Uttara High School and College *2019 - 2021*
Higher Secondary Certificate (HSC), Science Group Credentials

- GPA: 4.92/5.00

Tongi Pilot High School *2017 - 2019*
Secondary School Certificate (SSC), Science Group Credentials

- GPA: 4.67/5.00

Work Experience

Game Developer Intern *Aug 2026 - Present*
Battery Low Interactive Limited, Dhaka, Bangladesh Credentials

- Developed Unity-based **3D games and Augmented Reality projects**, contributing to gameplay mechanics, player interaction, UI, level progression, and testing.
- Worked on interactive gameplay systems, including an **endless runner game**, using Unity and C#.
- Applied **Unity and C#** to build, debug, and refine interactive game experiences in a professional development environment.

Position of Responsibility

Content Writer Intern *Apr 2026 - Present*
Center for Language, Cultural Studies (CLCS), Green University of Bangladesh Credentials

- Created and edited academic and promotional content for institutional publications and platforms.

Executive Member *2026 - 2027*
Green University Career Alliance Club, Green University of Bangladesh Credentials

- Contributed to organizing career development events, workshops, and networking sessions for **150+** students.

Member *2026 - Present*
Green University Research & Publication Community, Green University of Bangladesh Credentials

- Official member of the **Summer 2026 Cohort**, supporting research and publication activities among CSE students.

Campus Ambassador *2026 - Present*
BASIS Students' Forum Credentials

- Selected as Campus Ambassador to support student engagement initiatives and promote BASIS programs through on-campus outreach.

Cadet Corporal *Nov 2024 - Jan 2026*
Bangladesh National Cadet Corps (BNCC), Green University of Bangladesh Credentials

- Participated in structured military training focused on discipline, leadership, teamwork, and crisis management.

Awards

Dean's Certificate of Academic Excellence *2026*
Green University of Bangladesh Credentials

- To be awarded in Spring 2026 for outstanding academic performance; presented by the Dean.

Projects

EduAR 3D – Educational Augmented Reality Application *GitHub*

- Developed an educational mobile AR application that uses image targets to display interactive 3D learning models.
- Implemented universal lesson scanning, interactive 3D model controls, educational labels, learning content, quizzes, and progress tracking.
- **Technologies:** Unity, C, Vuforia Engine, Android

3D-Platform-Adventure *GitHub*

- Developed a 3D platform-adventure game featuring floating platforms, collectible coins, key-based progression, hazards, and level progression.
- Implemented player lives, death and restart systems, Game Over and Victory screens, start menu, UI, background music, and sound effects.
- **Technologies:** Unity, C#

PothIQ AI – Smart Dhaka Transit *GitHub*

- Developed a mobile application focused on improving urban bus transportation and commuter access to transit information.
- Built the application with a mobile-first approach, focusing on practical navigation and user-friendly transit features.
- **Technologies:** React Native, Expo

Plant Disease Detection AI System *GitHub*

- Developed an AI-based system that detects plant diseases using image processing and machine learning techniques.
- **Technologies:** Python, Kaggle, Pandas

Nike Store – E-Commerce Web Application *(Group Project)* *GitHub*

- Collaborated in a team of 3 to build a dynamic and responsive replica of a Nike e-commerce website with a fully functional backend.
- **Technologies:** HTML, CSS, JavaScript, PHP, MySQL

Skills

Game Development: Unity, C#, 3D Game Development, Gameplay Mechanics, Animation, Level Design.

Augmented Reality: Vuforia Engine, Unity AR, Image Target Tracking, Interactive 3D Models.

Software Development: C#, Java, C++, C, Python, React Native, Expo.

Web Development: JavaScript (React), HTML, CSS (Tailwind), PHP, MySQL, Firebase.

Machine Learning: Python, NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch.

Version Control: Git, GitHub.

Certifications

Wing Camp 2024–2025 *2025*
Bangladesh National Cadet Corps (BNCC) Credentials

- Delivered an English extempore speech in front of 800+ audience.

AI/ML/IoT Bootcamp (5-Day) *2025*
Green University of Bangladesh, IEEE CS SBC GUB & IEEE GUB Student Branch Credentials

- Completed hands-on training in AI, Machine Learning, and IoT with industry-focused learning.

Light Search and Rescue *2025*
Bangladesh Red Crescent Society (BDRCS) Credentials

Certificate of Appreciation – Convocation Volunteer *Feb 2025*
Green University of Bangladesh Credentials

- Served as a volunteer in the 5th Convocation and supported event management.
